

Shape new paths

Record Impression Speedgate

Your global partner for entrance solutions

Ambition and reality just moved closer

We all know how to optimise our public spaces for efficiency: managing access and flow securely, with mechanical precision... In this quest for efficiency, we sometimes make our world duller than it has to be.

But the reality of secure access control needn't interfere with the ambition of architecture. The flexible constructs and attentive detailing of the Record Impression Speedgate creates new possibilities for controlled high-flow passage that impresses. And with its discreet integration of leading technology, this speedgate supports functional purpose with true style.

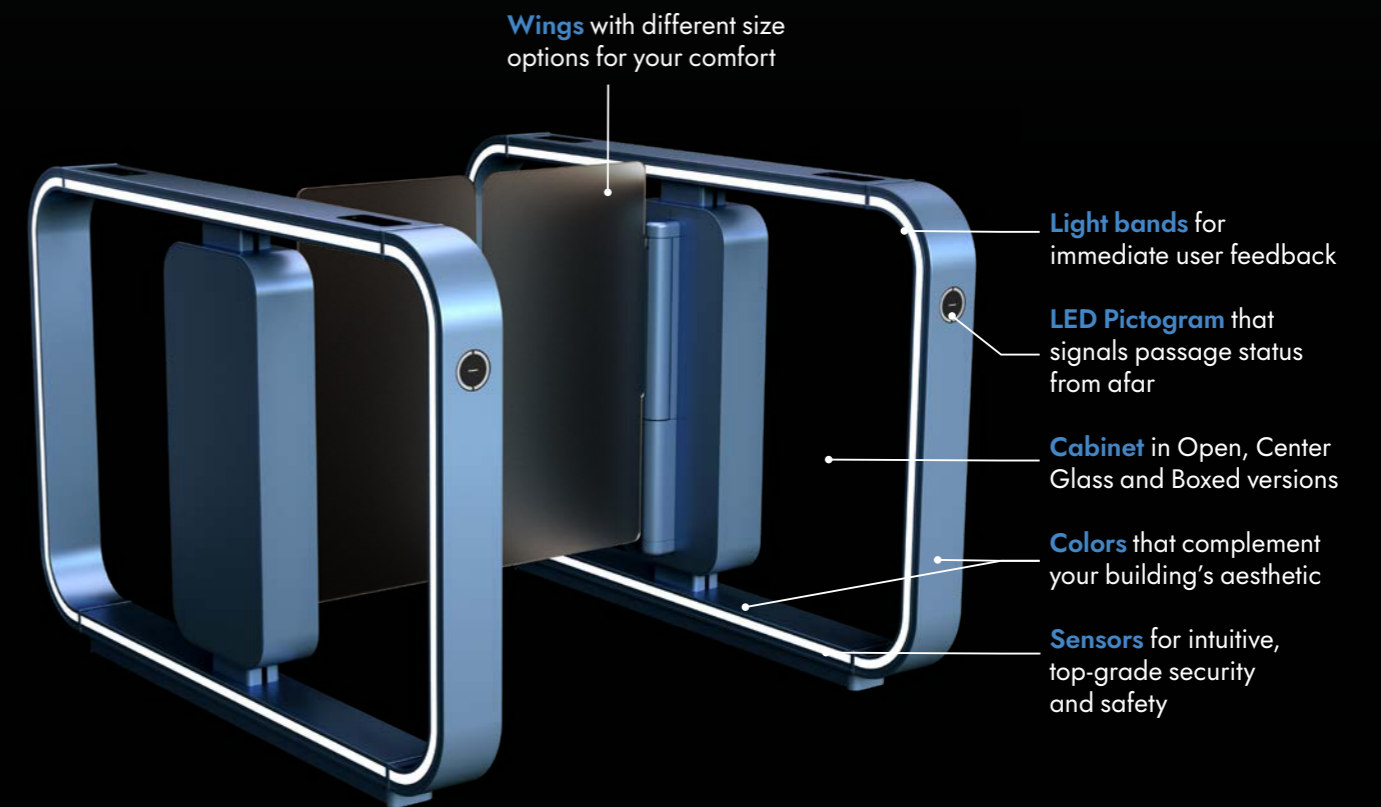

Record Impression Speedgate

Shape new paths

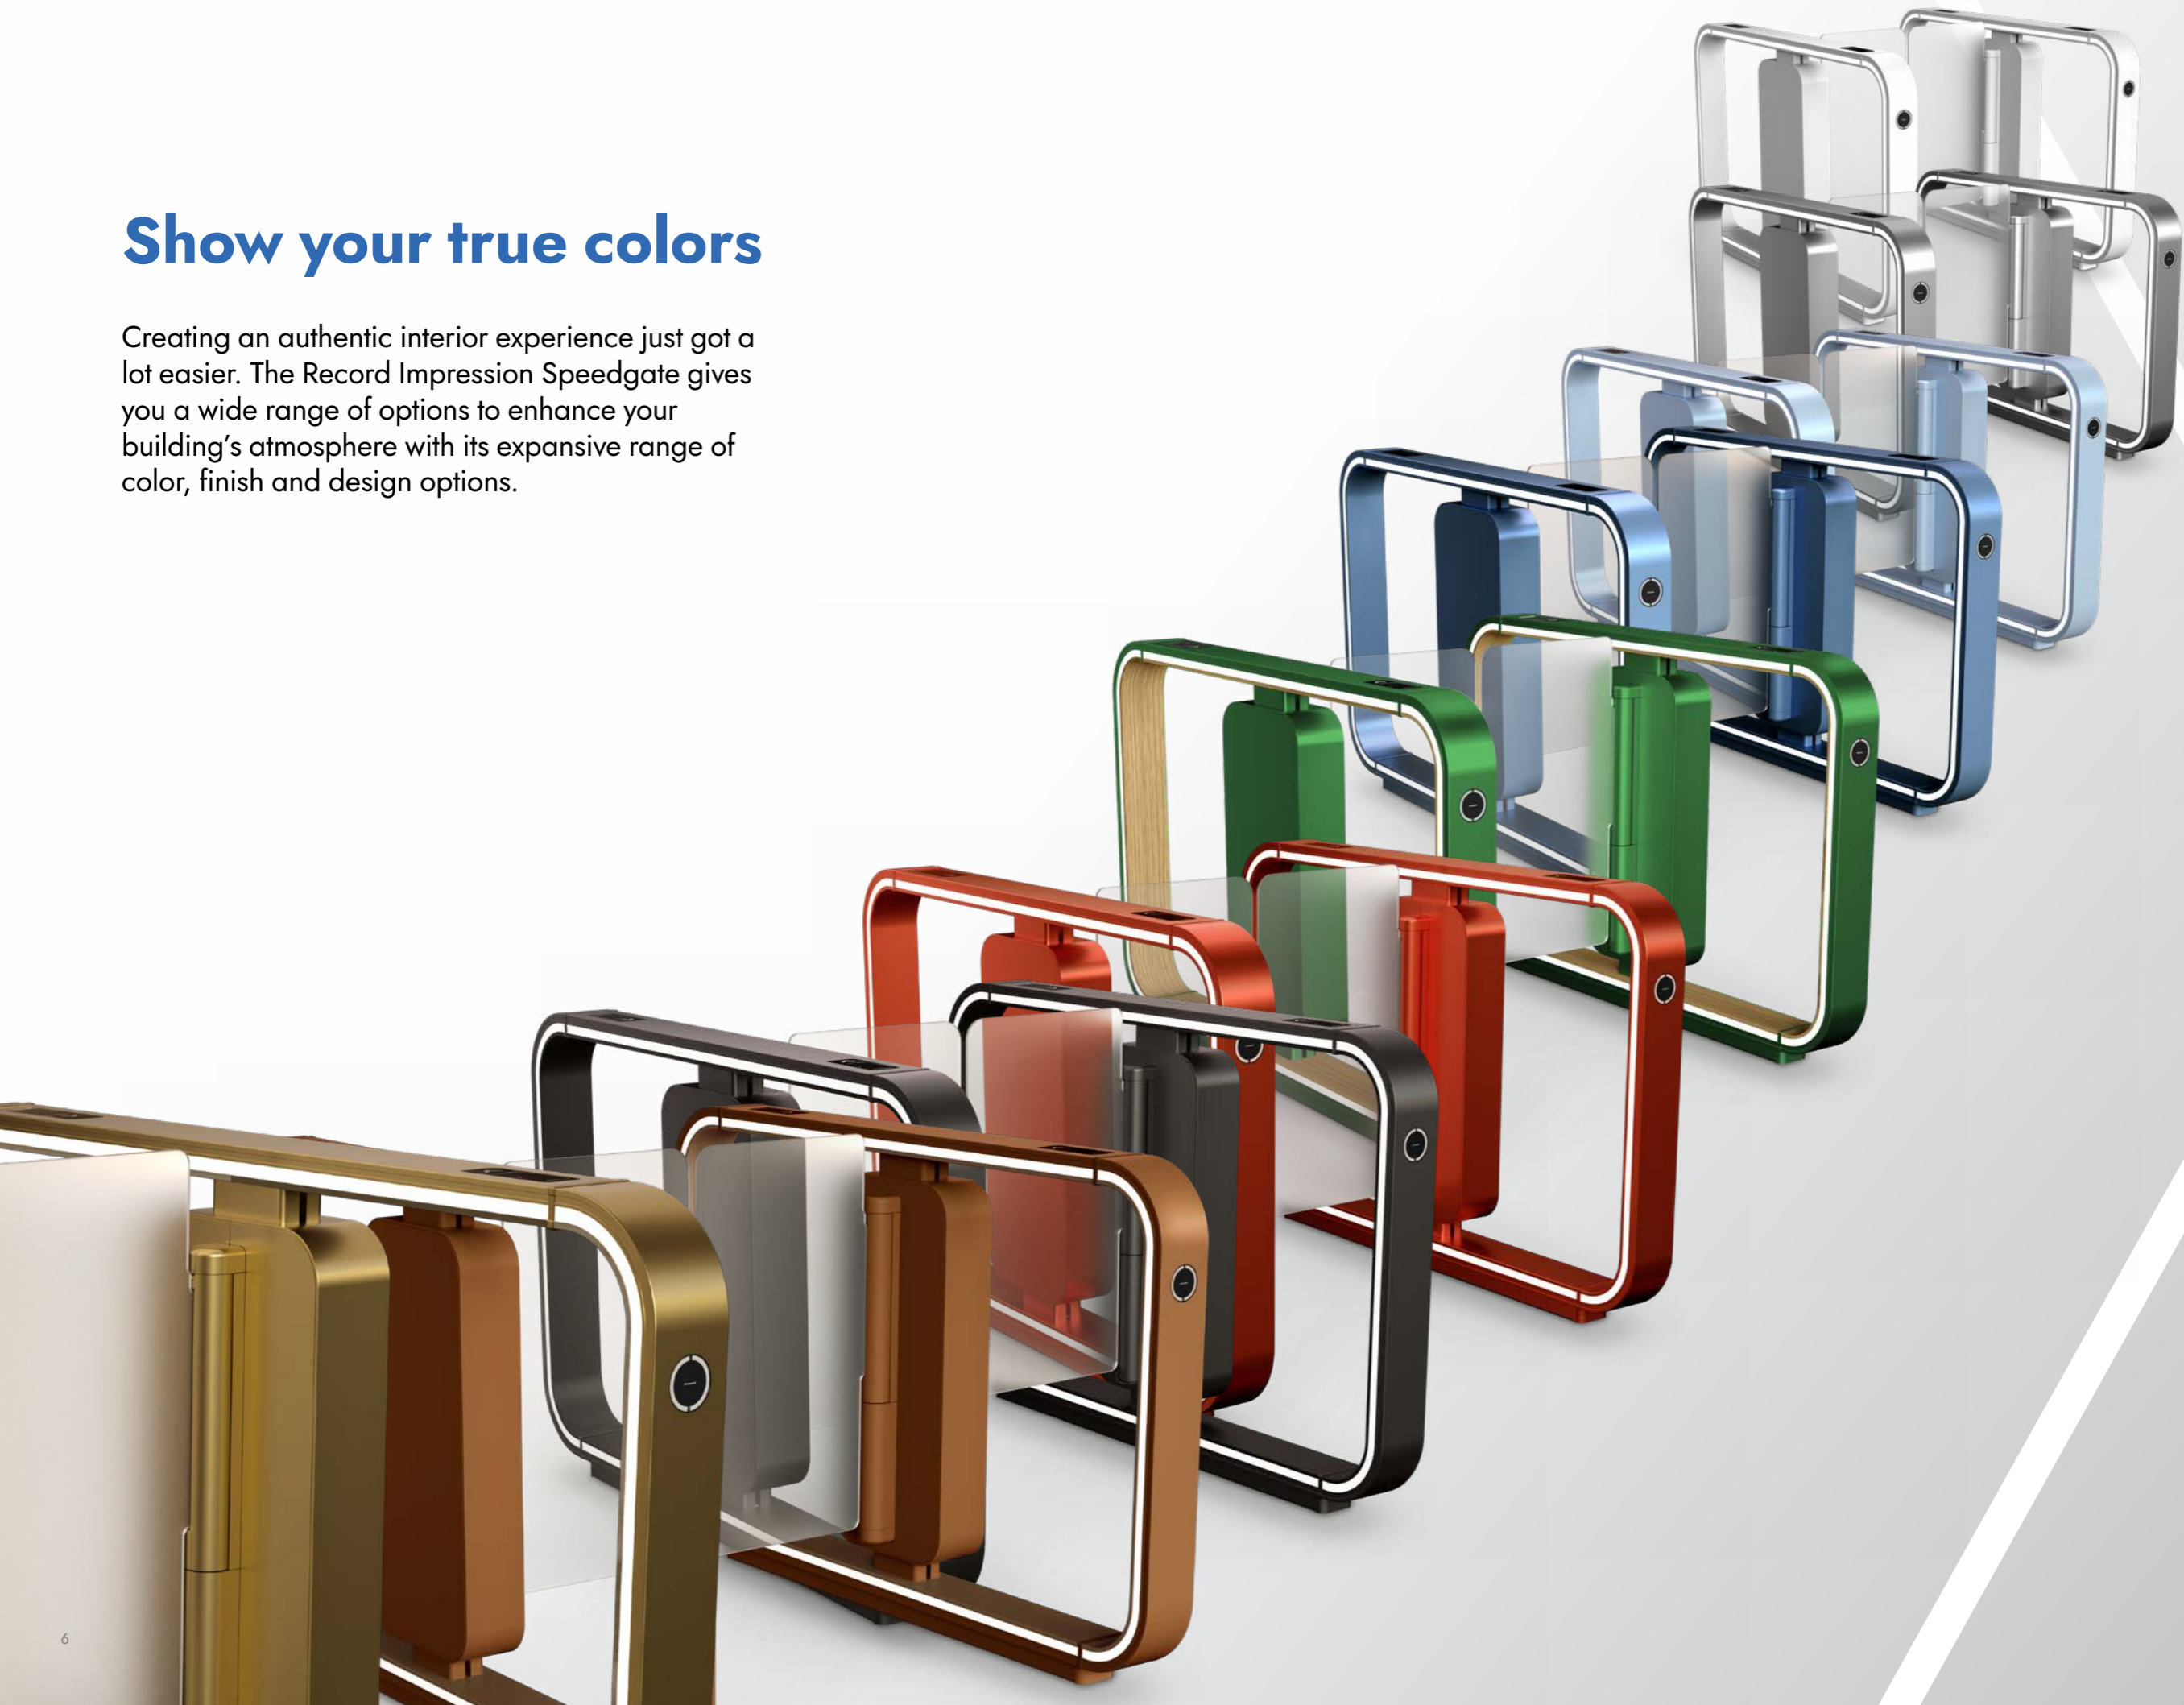

Designed to impress from afar

The Record Impression Speedgate is strong on structural and finish details, providing aesthetic lift to support your brand ambitions. Combined with the latest digital entrance technology from HID, the Record Impression Speedgate brings a new level of design flexibility and impact to high-flow passage.

Show your true colors

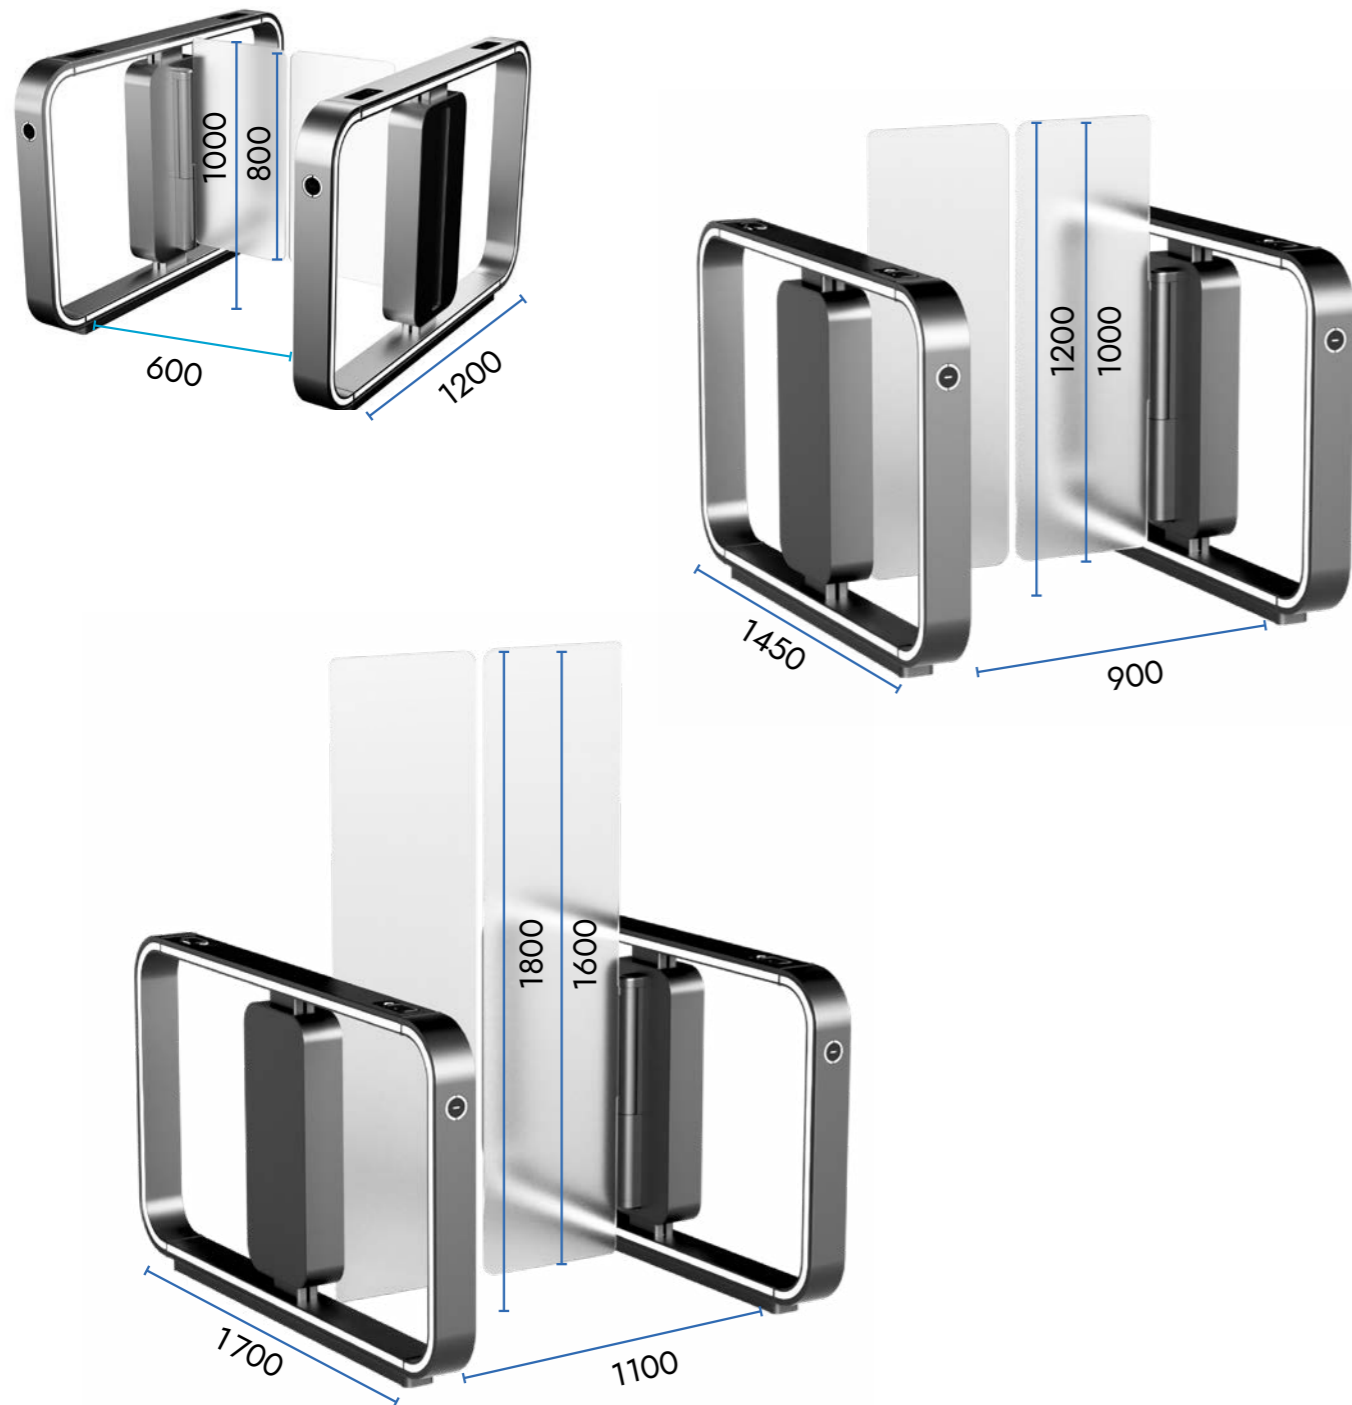

Creating an authentic interior experience just got a lot easier. The Record Impression Speedgate gives you a wide range of options to enhance your building's atmosphere with its expansive range of color, finish and design options.

Flexible options, full solutions

Accessories

Drilling template
Ramp for finished floor installations

Inspire your environment

With an expansive color palette and different design finishes to work from, the Record Impression Speedgate offers feel-good efficiency – as well as multiple options for protecting your indoor environments with personality.

Impress with access

We encounter too few opportunities to shape aesthetic appreciation in the pursuit of functional goals. That changes with Record Impression Speedgates – which turns high-flow passage into an opportunity to move.

Lift your lanes

The Record Impression Speedgate benefits from streamlined design, thoughtful accents and finish options, letting you choose exactly what you need to truly enhance your interior – from deluxe colors to sleek cabinet styles.

Elevate the everyday

The Record Impression Speedgate combines aesthetic structural details and finishes with the latest digital entrance technology. The result is secure high-flow passage with presence, and the capacity to impress as well as it performs.

Service is our passion

Today, there are over 8 000 Record automatic door systems installed all over Switzerland (our home market), still operating smoothly – even after 20 years of use or more. This kind of reliability is only possible through a combination of the highest standards of design, construction and installation, and long-term service and maintenance by our highly skilled in-house service technicians.

Inspection and maintenance have a particularly high priority at Record. Our customers use our entrance solutions every day, and the fact that they're designed and built to last a long time enhances their satisfaction. For your speedgate to also function smoothly over decades, and be able to fulfil the relevant safety and security regulations of your country, the best solution is regular servicing and maintenance. The flexibility of our maintenance contract will allow you to vastly reduce your operational and maintenance costs as well as guarantee your speedgate's lifecycle of use.

Choose the right service package for your needs

From maintenance and repair to digital support, our service technicians are ready for any queries you might have. To increase the chances of success, we make it our priority to personalise our service and maintenance packages, enabling you to fully meet your legal requirements of due diligence. After first consulting with you about your specific requirements, your service advisor will then find and present the ideal maintenance and service package to meet all your needs. This way, you and your speedgate will definitely get what you both need: top-notch service and a thriving maintenance relationship.

Going global, staying local

Even as Record has grown over the decades – now spanning four continents! – our commitment to our customers hasn't changed. This is why we have local service teams in place wherever our products are available, so that we can be your partner for the entire lifecycle of your entrance solution; from installation to maintenance, repairs, upgrades, and anything else you may need.

- › Revolving Doors
- › Swing Gates
- › Tripods
- › Exit Lanes

Entrance solutions for all

From speedgates to full-height turnstiles and thermally separated automatic doors, our solutions all serve the same purpose: your building's security.

Safeguarding your environment has never been as important as it is today. From large crowd-attracting venues to hospitals, airports or financial institutions, your visitors deserve to feel secure and well looked-after for the entire duration of their time with you. This is why we offer security entrance control solutions that are easily adaptable to your specific needs, as well as local service options to make sure they function perfectly throughout their entire lifecycle.

We want your doors to succeed

Since Record's inception in 1953, the centre of all our product development and related services has been our customer – in other words, you. And while business needs have evolved significantly over the last 70 years (together with our product portfolio), one thing hasn't changed. Your full satisfaction with the quality of our products and services is still our single, most important goal. Because we know that when your doors succeed, you succeed. And that's all that matters.

The Record Group (part of the ASSA ABLOY Group) is an industry-leading manufacturer of automatic door systems. Founded in Fehraltorf, Switzerland in 1953, Record has historically relied on combining its global presence with local reach to achieve customer satisfaction and success; pushing the boundaries of product innovation from the start, Record's product range today includes top-quality revolving doors, sliding doors, swing doors, hermetic doors and security entrance solutions. Together with its well-known maintenance service, which supports and inspires clients around the world, Record is proud to offer end-to-end entrance solutions to suit any business' individual needs.
